Samsung GALAXY

Portable Battery Pack

9000mAh Capacity

SPECIFICATION SHEET

Don’t get stranded by a dead battery again

In today’s busy world, a dead battery can leave you disconnected from life, work, and your daily routine. The Samsung Galaxy Portable Battery Pack will keep you from getting stranded when you’re on the go and without a convenient charging source. With a full 9000mAh of charging power, you can recharge your device up to 3 times. Charge a wide variety of devices with the included micro USB and 30-pin charging adapters – including the complete Samsung Galaxy line up.

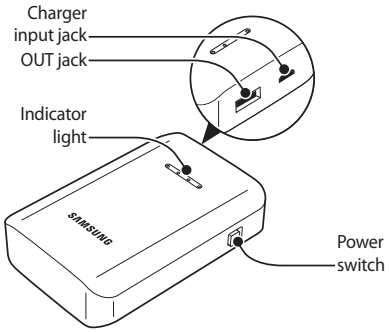
- Provides Up To 3 Full Charges to your Device
- Easily Charge Battery Pack with any Micro USB Charger *(Charging time varies based on charger output. See chart below.)*

* Actual recharge capacity depends on device being recharged and device battery size in mAh.



Charging time

Battery capacity : 9000 mAh

Charger	Charging time
Travel Adapter 10W charger	Approximately 6 hours
Smartphone charger	Approximately 12~16 hours
USB cable	Approximately 18~22 hours

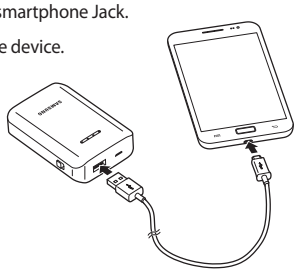
Checking the battery level

Check the battery level with the number of indicator lights turned on.

Battery status	Indicator status
75~100%	Four lights
50~75%	Three lights
25~50%	Two lights
5~25%	One light
0~5%	Blinking one light

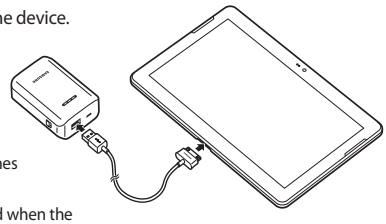
Charging a smartphone

1. Turn on the device by sliding the power switch to ON.
2. Connect the USB cable to the OUT Jack on the device and then plug the end of the cable into the smartphone Jack.
3. After charging, turn off the device.



Charging a tablet

1. Turn on the device by sliding the power switch to ON.
2. Connect the 30-pin cable to the tablet and then plug the end of the cable into the OUT jack on the device.
3. After charging, turn off the device.



- This device is technically a spare battery, so it may not fully charge some smartphones or tablets.
- The indicator light flashes red when the temperature is not appropriate or when the device malfunctions.
